Subject: HWL - China/Africa

We have for some while anticipated moves, especially in Africa, on the HWL front. Almost all signals have been this is a strictly competitive move, ie HWL's make parallel imports more difficult.

Wendy Burrell has kindly assisted in probing some of our main competitors. The below message from Africa shows there is now a formal "reason why" for a renewed HWL policy by some competitors.

I would much appreciate if you could update me on HWL's for China and our PM policy.

Best regards, Stig

Subject: HWL - China/Africa

During an AWG meeting on September 23, BAT and RI informed me that they were re-questioning whether they will put HWL's on their packs in Africa, in view of PM's decision to remove HWLs on packs for China. I advised that we had no plans to remove the HWLs on packs in Africa.

Please can you find out what the situation really is in China and related markets.

Thanks,

Rand Sherif
